## Plot draw

### Draw 1:

1. The electronic application system draws ordinal numbers for the families with children draw group applicants. The applicant with ordinal number 1 receives the plot listed first in the order of priority in their application.
2. The applicant with ordinal number 2 receives the plot listed first in the order of priority in their application, unless it is the same plot as the plot of the applicant with ordinal number 1. In this case, the plot listed second in the order of priority is proposed.
3. Plots are reserved in this way until the quota of 50 % of the plots is filled.

### Draw 2:

1. The electronic application system draws ordinal numbers for the open group applicants.
2. The reservation proposal will be formed one application at a time after this, similarly to as in the case of families with children draw group in sections 2. and 3.
3. Plots are reserved in this way until the quota of 50 % of the plots is filled.
