

**Perttu Pölönen talks in his video about his entrepreneurial journey and the different ideas which he realized through entrepreneurship. From a teaching perspective, what was the most important takeaway for you about his entrepreneurial journey?**

**Pölönen introduces his personal 5 do's and 5 don'ts. Which of these do you think are most challenging for your students? You can choose multiple options.**

Do's

- ☐ know your values.
- ☐ find what you love and 'let it kill you'.
- ☐ focus on what deserves your attention.
- ☐ if opportunity doesn't knock, build a door.
- ☐ Make emotions work for you instead of against you.

Don't's

- ☐ don't waste a good crisis.
- ☐ don't look for inspiration, look for irritation.
- ☐ don't let schooling get in the way of education.
- ☐ don't let money get in the way of what's important.
- ☐ don't cling to a mistake just because you used a lot of time making it.

**Reflect, how can you as a professional of your subject area encourage youth to follow these do's and don'ts?**

**How does social media and digitalization affect you? What about the youth you teach/encounter in your life?**

**Reflect and give input on how to broaden youth's perspectives about the constant change that happens in the world and in the individuals themselves? How can you as a teaching professional empower youth to take an active role (agency) in shaping their own future and the world?**

**Choose one theme from the video and come up with one way how you can use the video in your own teaching?**

**What kind of possibilities does your school/institution have in using digitalization, VR, social media in the work with youth?**
